<!-- 5/10/2022 Finished Main Menu, but footer hasnt been added to any page. -->
<!-- 08/10/2022 Completed the Main.html visual design, it is now responsive to smaller screens, the
embedded tweets will now switch between being in a column or row form based on the viewport. I put a hard
limit of the height of the twitter timeline because using data-tweet-limit = x only limits it to the
latest tweet, I want the twitter timeline to be interactive. -->
<!-- 11/10/2022 Validated main.html using validator.w3.org, error with charset included with twitter's
embedded timeline charset being obselete and added headings to the navigation menu and related content. -
-->

```
